

PATH JOURNEYS

*40th Anniversary Tour
April 9-16, 2017*

China

Innovation can change the world

Come see what it takes—
in the country that knew us first.

JOIN PATH FOR AN EXTRAORDINARY VISIT TO A LEADING CENTER OF HEALTH INNOVATION:

China

Where a singular mix of ancient culture, exploding modernization, and staggering geographic wealth have long attracted visionaries from around the world.

In the late 1970s, that included PATH's first leaders.

As China emerged from the Cultural Revolution, millions of people needed modern contraceptives, reliable condoms, and the technologies to produce them. Together, PATH and our Chinese partners found a way.

In the process, we ignited an unprecedented, decades-long partnership to improve lives worldwide.

Today China has grown into a global leader in health and development, bringing safe and affordable vaccines, devices, and tools to families everywhere.

PATH has been there at every step, working hand in hand with leaders and communities to put the country's resources to work for the world's most vulnerable people.

Now, we're gearing up for the next chapter.

Please join us for our 40th anniversary tour. For eight days, you'll meet with national leaders, partners, and visionaries; explore the country's beauty and history; and learn how China, PATH, and global leaders are teaming up to push health innovation further than ever before.

A DIFFERENT KIND OF TRAVEL

Journeys travel is more than a tour: it is a unique opportunity to understand the world in a new way.

Our expert staff don't just work in the countries they serve—most were born there. Our partners include top scientists, government leaders, and celebrated experts. And our solutions are designed with insights from families and communities worldwide.

“PATH's China Journey goes beyond tourism, drawing on four decades of hard-won expertise and partnerships to delve into the everyday practice and future implications of China's expanding role in global health.

I encourage travelers to tour with PATH. This is an exceptional time to visit China, and Journeys is a rare chance to get behind the scenes with a trusted leader in global health.”

-Gary Locke

Former US Ambassador to China,
Former Governor of Washington State,
Former US Secretary of State for Commerce,
PATH board member

A different kind of traveler

Our small-group trip (10 to 16 participants) is designed for people whose travel is guided by their curiosity and compassion. What we share is a desire for a more authentic understanding of the countries and people we visit.

For PATH's 40th anniversary tour, we are pleased to announce our distinguished host:

**STEVE DAVIS,
PRESIDENT AND CEO, PATH**

Prior to earning a law degree from Columbia University, Steve earned a master's degree in Chinese studies from the University of Washington, studied at Beijing University, and worked extensively with refugee programs and policies, Chinese politics, and Chinese law. Steve's lifelong connection to China sparked—and continues to fuel—his enduring passion for health and health equity worldwide.

Our itinerary

APRIL 9–16, 2017

This eight-day, seven-night trip will take us to **Beijing, Shanghai, Suzhou,** and **Chengdu** to see PATH and China's work in action. We'll talk with leaders from across sectors, learn how technical assistance from PATH is helping manufacturers expand global access to critical vaccines and products, tour the factories where better health begins, and explore the best of China's cultural and historic landmarks.

On this trip, you will:

TALK WITH LEADERS

- Attend the opening session of the China Philanthropy Research Institute, where Steve Davis will deliver the keynote address.
- Visit the National Immunization Program Center to see what it takes to provide vaccines to the largest population on earth.

MEET OUR PARTNERS

- Tour Beijing Tiantan Biological Products, which partnered with PATH to increase the global supply of oral polio vaccine; and the Chengdu Institute of Biological Products, which worked with us to expand access to a powerful vaccine against Japanese encephalitis.
- See the manufacturing plant where Laerdal Global Health is producing the lifesaving Nifty Feeding Cup. Based on a design by PATH, Seattle Children's, and the University of Washington, the cup allows infants who cannot breastfeed to lap breast milk.

EXPERIENCE CHINA

- Stroll the Great Wall of China in Beijing, take in the view, and learn the real history of this astonishing creation.
- Hold the littlest residents of the Chengdu Panda Breeding Center and hear how conservationists are protecting these majestic—and irresistible—ambassadors.
- Explore the Forbidden City, home of emperors and a major seat of governance for more than 500 years and now a UNESCO World Heritage site.
- Visit the Summer Palace, where breathtaking views join a seemingly endless collection of temples, corridors, bridges, and manicured grounds.

CELEBRATE 40 YEARS OF INNOVATION

- On the last night, sample local cuisine, toast new connections, and celebrate four decades of partnership between PATH and China at a final dinner and cultural performance.

A life-changing experience

Journeys travelers will return with a firsthand understanding of China's growing role in global health and development; personal insight built through discussions with business, health, and government leaders; and the unforgettable memory of the people working with PATH to save lives.

OUR TEAM

PATH's expert travel planners have years of experience organizing custom worldwide travel. We provide support at every step, including preplanning and visa help, in-country transportation, comfortable and well-appointed accommodations, and the high level of ease and safety our travelers expect. Want to extend your experience? Planners can also help arrange additional excursions before or after your Journey.
