

**6,092** donors to the campaign

**35** countries with supporters

**54** Global Health Heroes

Global Health Heroes are a group of remarkable leaders who have stepped up to support the Reach Campaign with gifts of \$100,000 or more.

#### WHY I SUPPORT PATH

*“I support PATH because its scale, smarts, and collaborative approach allow it to dramatically improve health outcomes across the globe.”*

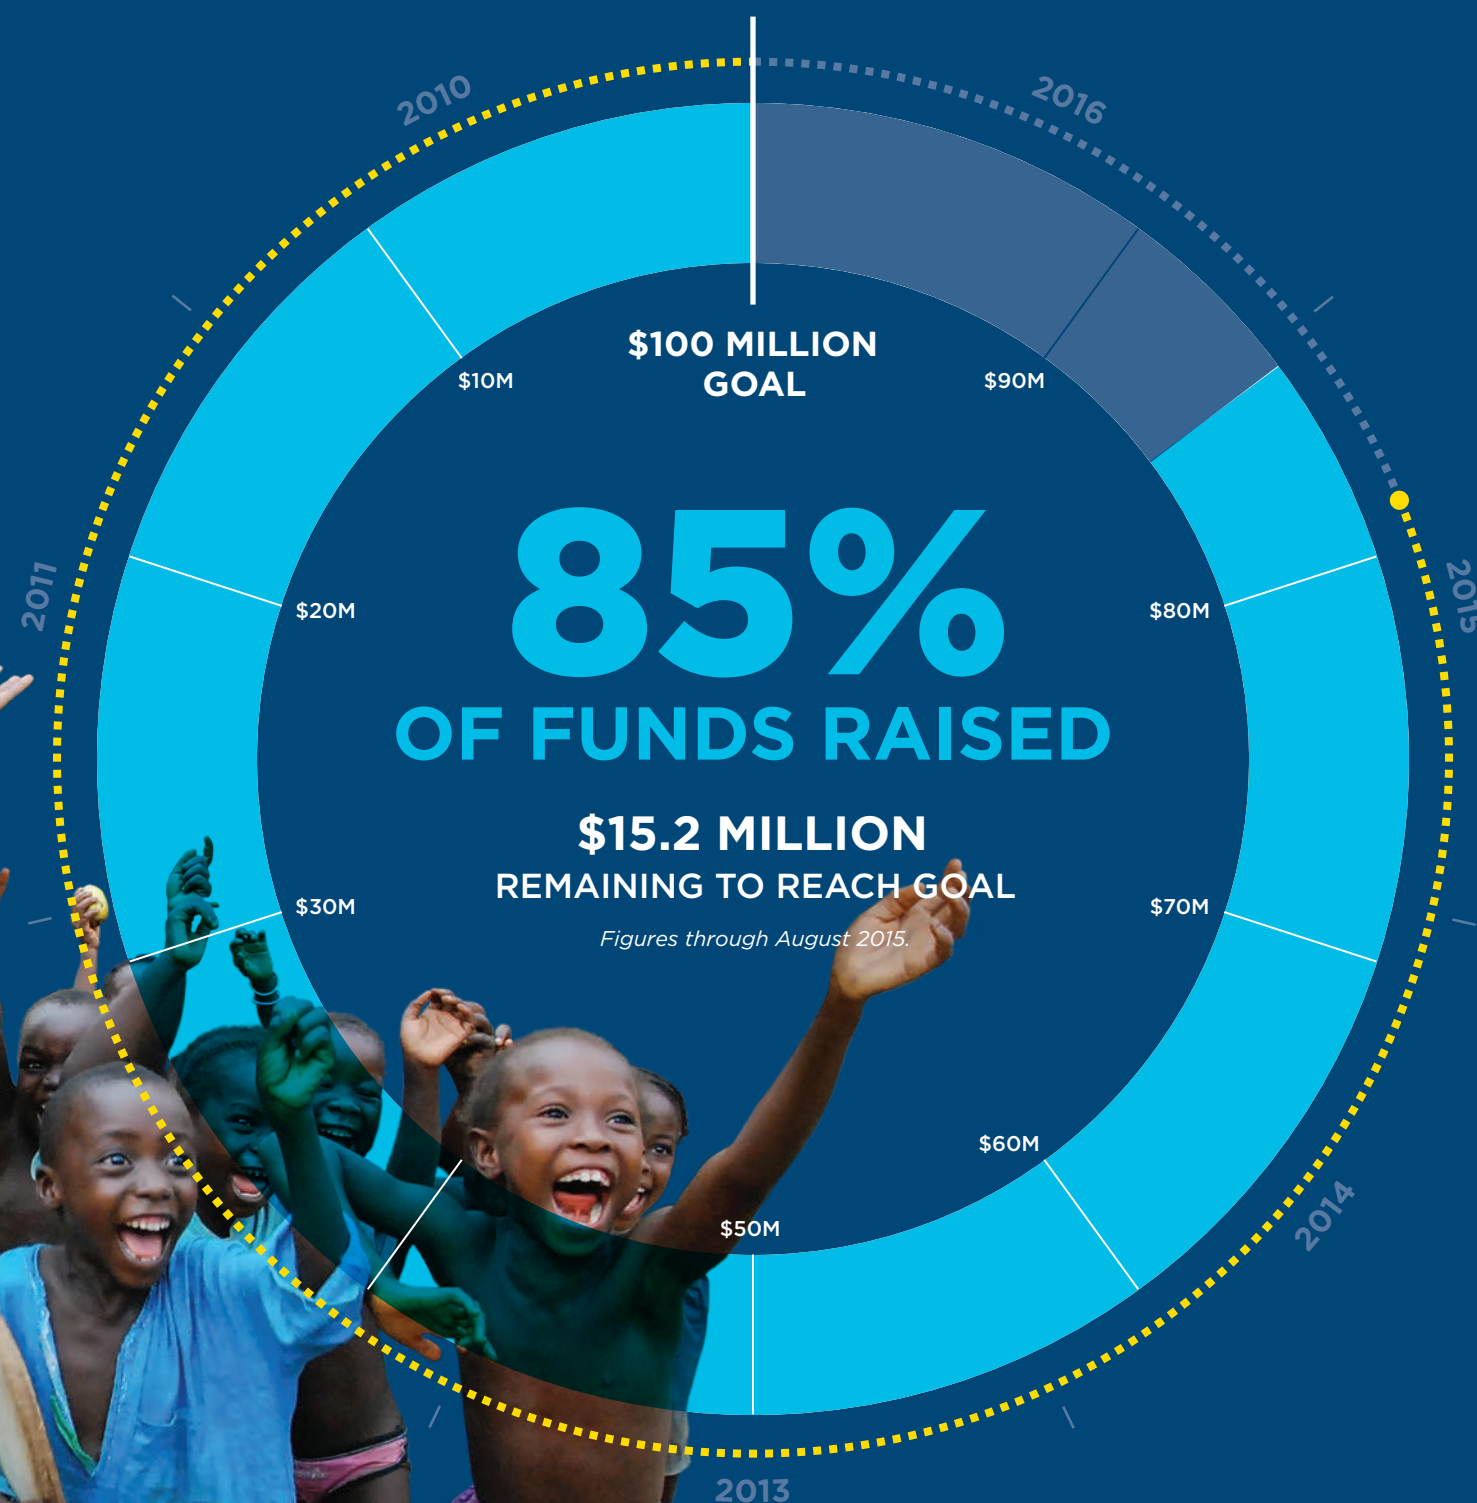

**Evelyne Rozner**  
Seattle, Washington, USA

# REACH CAMPAIGN SNAPSHOT

FALL 2015

OUR REACH CAMPAIGN IS RAISING \$100 MILLION TO ACCELERATE PROGRESS TOWARD A WORLD WHERE HEALTH IS WITHIN REACH FOR EVERYONE, NO MATTER WHERE THEY LIVE.

# YOUR IMPACT THROUGH THE REACH CAMPAIGN

TOGETHER, GIVING MILLIONS OF WOMEN AND CHILDREN THE HOPE OF A HEALTHY LIFE

PATH envisions a world where health is within reach for all. Thanks to you, we'll get there faster.

Individual donors, family foundations, and corporations are critical to achieving the objectives of the Reach Campaign: to nurture more ideas with great potential, overcome hurdles along the “journey of innovation,” and bring breakthrough health solutions into widespread use by those who need them most.

Your donations to the Reach Campaign primarily support PATH’s work in the four initiatives below. With your help, we are innovating faster in these areas and reaching farther around the world—eliminating diseases, making pregnancy and childbirth safer, and giving women and communities the tools they need to protect themselves and their children.

## MALARIA ELIMINATION

Leading the way toward a malaria-free world.

### THE NEED

- Number 3 killer of children.
- 214 million people in need of protection each year.

### OUR PROGRESS

**JULY 2015: Vaccine moves forward.** With an endorsement from European regulators, the world’s most advanced malaria vaccine candidate moved closer to use.

**AUGUST 2014–MARCH 2015: Lifesaving drugs.** About 39 million malaria treatments with semisynthetic artemisinin shipped to 23 countries.

## WOMEN’S AND REPRODUCTIVE HEALTH

Giving women the power to safeguard their own health.

### THE NEED

- 225 million women seeking family planning.
- 275,000 die from cervical cancer—a preventable and treatable disease.

### OUR PROGRESS

**JUNE 2015: Accessible family planning.** Launched our one-size-fits-most diaphragm. The injectable contraceptive Sayana® Press is now in four African countries.

**MAY 2015: Easier cancer detection.** A fast and cost-effective DNA test for the primary cause of cervical cancer launched in Guatemala, allowing women to collect their own screening samples.

## MATERNAL AND NEWBORN HEALTH

Making the first 1,000 days healthy and safe for mothers and babies.

### THE NEED

- 289,000 mothers die each year.
- Nearly 3 million newborns don’t survive.

### OUR PROGRESS

**2015: Safer childbirth.** PATH and a South African company developed a prototype of an all-in-one, low-cost uterine balloon tamponade—a device that can save the lives of women with uncontrolled bleeding after childbirth.

**2015: Healthier start for newborns.** To date, 12 countries have adopted a new formulation of the antiseptic chlorhexidine to prevent deadly umbilical cord infections in newborns.

## CHILD HEALTH

Protecting children’s futures by helping them thrive.

### THE NEED

- The chance to save nearly 6 million children under age five each year.
- Pneumonia and diarrheal disease are the leading causes of childhood deaths.

### OUR PROGRESS

**2015: Nutrition to grow up strong.** To date, we have reached more than 2 million Brazilians with rice fortified with an extra boost of vitamins and minerals.

**MAY 2015: Safe, clean water.** Launched the new MSR® SE200™ Community Chlorine Maker, which converts electricity, water, and salt into enough chlorine to treat 55 gallons of water.

## WHY I SUPPORT PATH

*“We support PATH because of the efficient manner in which they relieve suffering on a worldwide scale, and their 4-star Charity Navigator rating gives us added confidence.”*

**Gene and Mary Kay Gardner**  
Cincinnati, Ohio, USA

## HOW TO GET INVOLVED

- Donate to PATH.
- Sign up for the *News From PATH* e-newsletter.
- Follow PATH on Twitter.
- Share posts on PATH’s Facebook page.
- Bring a friend to a PATH event.
- Invite PATH to present at your company.
