

HOW THE WORLD IS MAKING MALARIA HISTORY

Leaders worldwide have pledged to eliminate malaria.
How will we reach this goal?

This is what malaria elimination looks like:

ZERO
MALARIA
TRANSMISSION

ZERO
MALARIA
INFECTIONS

ZERO
MALARIA
DEATHS

GLOBAL MALARIA DEATHS

ARE **DOWN** **60%**
SINCE 2000

It's an ambitious goal,
but we know it's possible!

57 COUNTRIES

DECREASED MALARIA
CASES BY **75%**

6.2 MILLION LIVES
HAVE BEEN SAVED

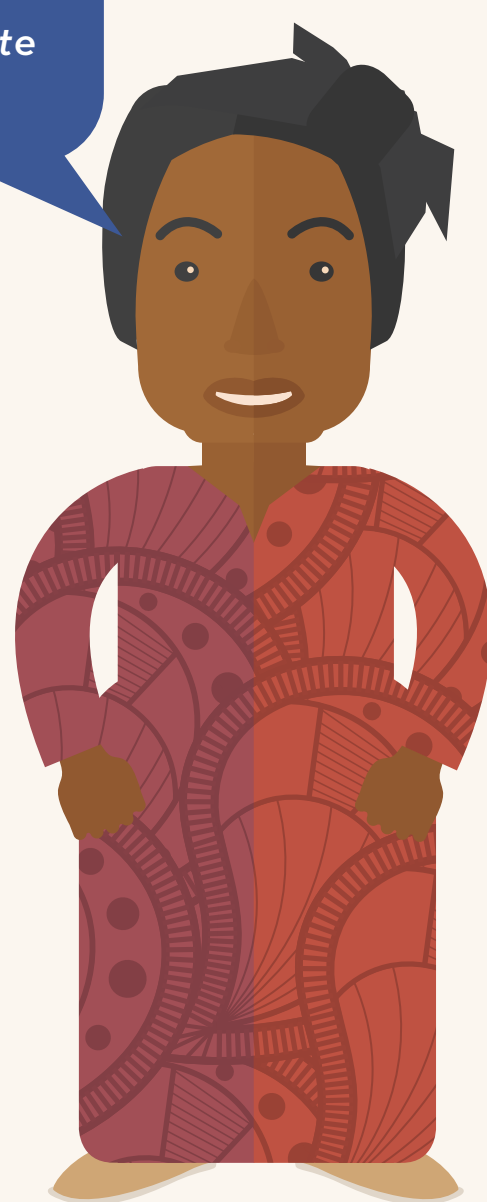

Here's what we're
working on to accelerate
progress.

APPROACHES

- **EFFECTIVE** elimination strategies
- **STRONGER DATA** and surveillance systems
- **OPTIMIZED COVERAGE** of existing tools
- **NEW** financing models

TOOLS

- **DRUGS** to block transmission and cure malaria in the liver
- **SENSITIVE DIAGNOSTICS** to detect low-density infections
- **A VACCINE** to interrupt parasite transmission

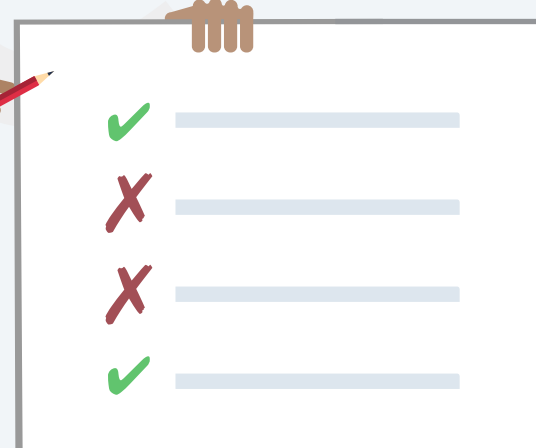

PROGRESS TAKES TIME.

Sustained **POLITICAL**
and **FINANCIAL** support
are critical to success

We're learning as we go,
testing new strategies to
see what works best.

And our hard work
will pay off!
Eliminating malaria
will result in:

Less poverty and better equity

US\$2
TRILLION GAINED

5x
HIGHER
ECONOMIC
GROWTH

72%
OF BUSINESSES
MORE
PRODUCTIVE

Freed-up health systems

- STRONGER HEALTH AND DATA SYSTEMS
- COMMUNITIES MANAGING CARE

Better quality of life

- **NO** MALARIA DEATHS, ILLNESSES, OR DISABILITIES
- **NO** DAYS MISSED FROM WORK OR SCHOOL
- **NO** INCOME SPENT ON TREATING MALARIA
