**About SAMAGRA**

Samagra is a USAID funded, PSI led project, implemented by PATH in Jharkhand, Madhya Pradesh, Maharashtra, and Odisha. The project aims to create a resilient urban health ecosystem that is responsive, affordable, & equitable, and provides quality preventive, promotive, and curative primary health care to the urban poor, especially women, children, and other vulnerable populations. The project is aligned with Govt. of India’s initiatives including National Urban Health Mission (NUHM), Ayushman Bharat - Health and Wellness Centres (AB-HWCs), Pradhan Mantri-Ayushman Bharat Health Infrastructure Mission (PM-ABHIM) and Fifteenth Finance Commission grants (XV-FC).

**The Reach**

- **Jharkhand**: Bokaro, Dhanbad, East Singhbhum (Jamshedpur), & Ranchi
- **Madhya Pradesh**: Bhopal, Gwalior, Indore, Jabalpur, & Ujjain
- **Maharashtra**: Mumbai & Pune
- **Odisha**: Bhubaneswar & Cuttack

**Goal: To improve the availability, accessibility, & quality of primary healthcare services in urban areas**

**Objectives**

1. Technical assistance for operationalization of urban HWCs and polyclinics in accordance with the XV-FC and PM-ABHIM guidelines
2. Technical assistance for strengthening urban health components under National Health Mission
3. Creation of continuum of care by strengthening referral linkages between urban HWCs, polyclinics and secondary and tertiary care facilities
4. Establish and strengthen community engagement platforms for decentralized planning, catalyzing demand, concerted community mobilization and participation
5. Co-design innovative solutions to improve the efficiency and efficacy of urban primary healthcare services

**SAMAGRA in Madhya Pradesh**

- State level technical assistance and intensified support across 5 cities
  - Bhopal
  - Indore
  - Ujjain
  - Gwalior
  - Jabalpur

- 89.16 Lakhs (38%)
- Urban Population
- 367 Health Facilities
  - UPHC & UHWC
SAMAGRA is providing comprehensive technical support in strengthening the urban primary healthcare ecosystem in the state of Madhya Pradesh with a dedicated focus on five cities - Bhopal, Gwalior, Indore, Jabalpur, and Ujjain. These five cities contribute to 47% and 41% of the state’s target for the operationalization of UHWCs and UPHCs respectively. SAMAGRA is committed to expediting the initiatives of state and city administrations in operationalizing Health and Wellness Centers (HWCs) in urban areas for quality comprehensive primary healthcare services. The key interventions entail enhancing the competencies of the primary healthcare teams, focusing on decentralized planning at the city level, empowering community structures and elevating community engagement, ensuring the provision of essential services at facility and outreach, and developing knowledge products for improved healthcare.

State plan for operationalisation (FY 2023-2024)

141 UPHC
783 UHWC

To be strengthened as

Ayushman Arogya Mandir

190 Polyclinics

Areas of Technical Assistance in Madhya Pradesh

- Accelerating operationalization of urban primary healthcare facilities
- Competency enhancement of primary healthcare teams and urban local bodies
- Intensification of MCH, FP, and TB services
- Roll out of expanded range of services
- Community engagement to create resilient urban primary health systems
- Augment systems’ capacity for timely detection and response to outbreaks
- Improving access to drugs and diagnostics
- Utilizing existing reporting and recording mechanisms for evidence-based decision-making

State-specific initiatives under Samagra

1. Catchment mapping of urban primary healthcare facilities utilizing Geographic Information System (GIS) technology
2. Tracker for efficient functioning of Jan Aarogya Samitis
3. Setting up of model anti-rabies clinics
4. State-wide adoption of supportive supervision checklist as a continuous performance improvement mechanism
5. Development and state-wide rollout of team-based incentive tool for urban primary healthcare facilities
6. Model Mahila Arogya Samiti for localized planning and enhancing community engagement
7. Patient support groups for strengthened elderly and NCD care
8. Development and roll-out of IT module for capturing expanded package of services at urban primary healthcare facilities at state MP Arogyam portal
