

Rotavirus Vaccines

We can protect children from the leading cause of severe and fatal diarrhea. But without access to rotavirus vaccines, **every child is at risk.**

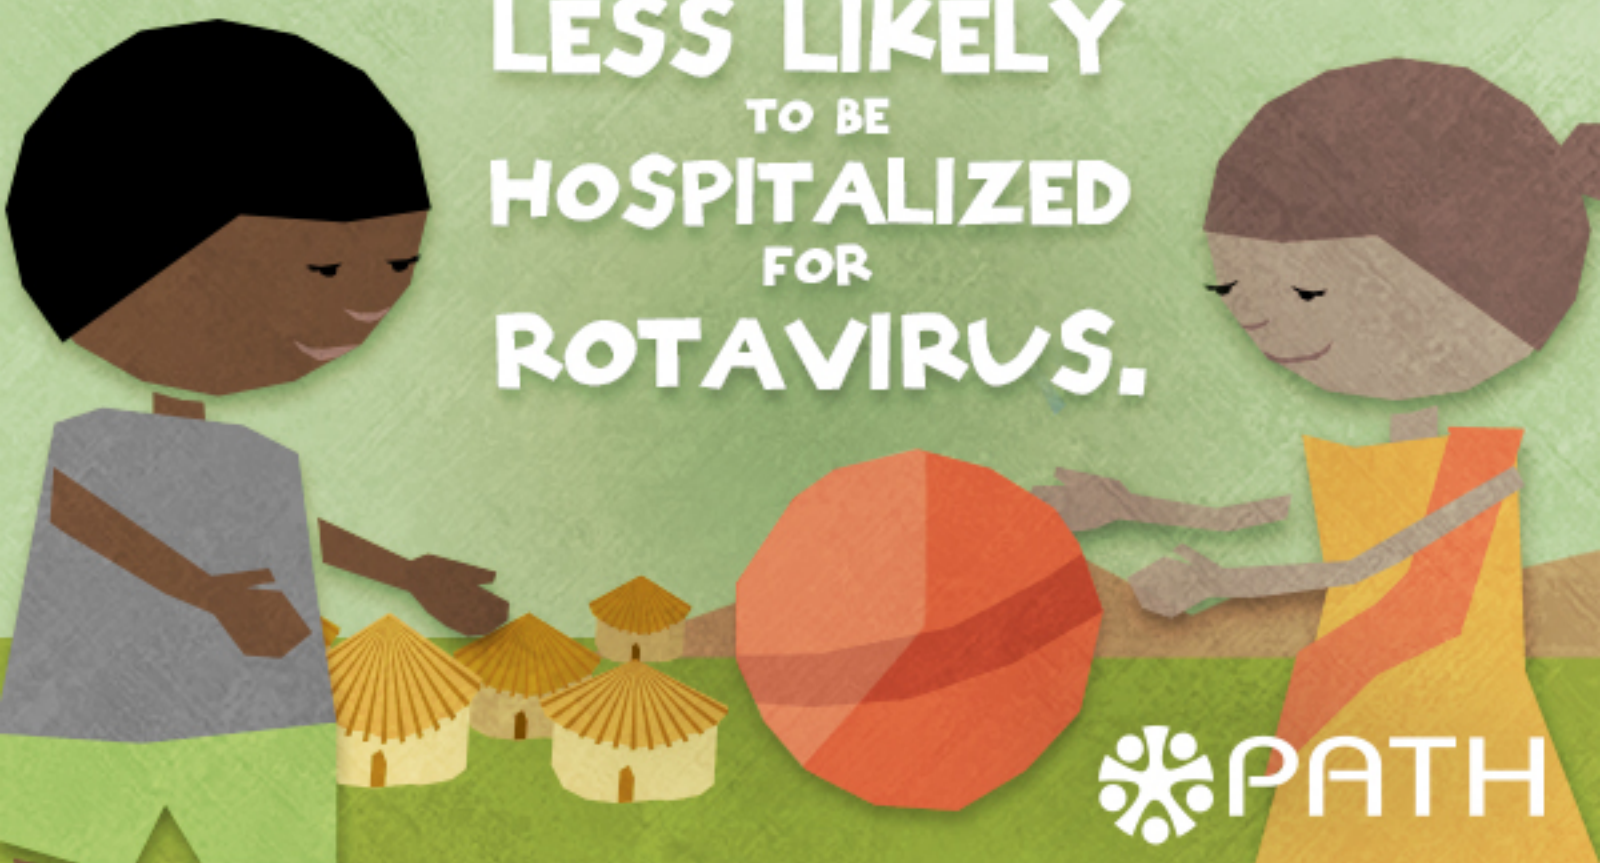

In less than 10 years, **more than 75 countries** have introduced rotavirus vaccines into national immunization programs

This is the fastest scale-up of a childhood vaccine, ever.

Many countries that have rolled out rotavirus vaccines are seeing **swift and significant health benefits.** Vaccinated children are

**50% TO 94%
LESS LIKELY
TO BE
HOSPITALIZED
FOR
ROTAVIRUS.**

Make rotavirus vaccines available worldwide!
